Art Unit: 1657

I. Claims 33-38, drawn to a compound.

II. Claims 39-45, drawn to a method of decreasing virulence of Gram-negative bacterial.

Newly submitted claims 39-45 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the method of using the compounds in claim 33 was not presented in the original claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 35-39 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The elected species (compound 28) encompasses compounds 21, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 35 and 36, non-elected compounds are compounds 20, 22, 34 and 37.

Claim 33 (in part) is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 1657

In view of the rewritten claims, the rejection under 35 USC §112 second paragraph is hereby withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 33 is rejected under 35 U.S.C. 102(b) as being anticipated by Leemann et al. (Progr. Drug. Res. 1963;6:151-278).

Leemann teaches compound 23 (salicylanilide, 4'-chloro-5-iodo-) as source of fluorescence and the chemical structure (abstract and page 276).

Claim 33 is rejected under 35 U.S.C. 102(b) as being anticipated by Ciampa et al. (Farmaco, Edizione Pratica 1966;21(2):77-99).

Ciampa teaches compound 23 (salicylanilide, 4'-chloro-5-iodo-) in drug analysis (abstract).

Therefore, the cited reference is deemed to anticipate the instant claims above.

Applicant's arguments filed 1/22/2007 have been fully considered but they are not persuasive.

Art Unit: 1657

Applicant argues that reference to compound 23 has been deleted in claim 33.

It is the examiner's position that compound 23 has not been deleted in claim 33.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Conclusion

No claim is allowed.
